

## ACTIVITY 4/WHAT WOULD YOU DO?

Directions: Playing two roles, describe how you would respond to the 10 dilemmas displayed on the screen in the space provided below. First, imagine making \$7.25 per hour and having to adjust your budget to resolve each scenario. Then, tackle the same set of issues but this time earning \$10.10 per hour. Be inventive but also recognize when you are defeated.

| #  | \$7.25 Budget | \$10.10 Budget |
|----|---------------|----------------|
| 1  |               |                |
| 2  |               |                |
| 3  |               |                |
| 4  |               |                |
| 5  |               |                |
| 6  |               |                |
| 7  |               |                |
| 8  |               |                |
| 9  |               |                |
| 10 |               |                |
