

# TurboTax Answer Keys

There are four TurboTax for Education scenarios. For each scenario, the federal and state return amounts are shown below. These answers are shown on the top of the screen in Turbo Tax as students progress through the simulation.

- ✓ **Ezra Daniels**

Federal	\$564	refund
State	\$549	refund
  
- ✓ **Karissa Rettig**

Federal	\$303	owed*
State	\$452	refund
  
- ✓ **Dirk Lohani**

Federal	\$816	refund*
State	\$14	refund
  
- ✓ **Ada Singh**

Federal	\$2530	refund*
State	\$791	refund

For Karissa, Dirk, and Ada, who file as independent, these federal return amounts are based on entering \$1200 in the first stimulus payment box and \$0 in the second (as instructed in the directions). Any difference will have an equal change to the federal refund.

*For example, entering Dirk Lohani's stimulus payments \$0 will increase his refund by \$1200.*

Ezra is a dependent, therefore the stimulus has no impact.
