

Name: _____ Date: _____

Use the following form to record your information as you research using the referenced web sites.

Source of electric power	Cost (per KW hour of electricity)	Unintended consequences (e.g. dead birds, pollution)	Consistency (generate all of the time?)	Cost of generating plants	Probability of use (regional locations)
Wind					
Nuclear					
Coal					
Oil					

Take a moment and rate the sources of electric power based your understanding and research recorded above. 4 being the highest and 1 being the lowest. Identify the source that you discovered rated highest.

Source of electric power	Cost (per KW hour of electricity)	Unintended consequences (e.g. dead birds, pollution)	Consistency (generate all of the time?)	Cost of generating plants	Probability of use (regional locations)
Wind					
Nuclear					
Coal					
Oil					

My highest rated source of electric power _____
