

## Mission Possible

### Instructions:

Your assignment, if you choose to accept it, is to provide resources for your classroom. The desks, chairs, black boards and other regular furniture items are already provided.

The following is the approved list of items that may be purchased for your classroom. There are four “wild” card spaces for which you may add items to the list. Your teacher must approve these items before being added, and you must determine the approximately annual cost for it. For each item, you may not purchase partial units. Print out this sheet and cut apart each strip to aid in your creating the list of items. The budget provided for you by the Principal is \$5,400 for the year.

Find the price for your school supplies:

Computer	3,750
Printer	300
Internet connection (phone)	180
Printer ink (year supply)	270
