

## Learning About the Inuit

1. What does the largest percentage of Inuit people do to sustain themselves?
2. In what was, if any, has the way that the Inuit sustain themselves changed over the course of their history?
3. In market economies, families often represent the foundational social organization. Is this also true of the Inuit's traditional economy? Justify your answer with evidence.
4. On first glance, people might think that the Inuit have experienced very little technological development over the course of their history? Is this true? How do you know?
